

SYRION

EU Proposal Coordination – From idea to overall concept

Call screening

Concept development

- Storyline
- Goals / Objectives
- Identification of Challenges
- Innovation / Beyond State-of-the-Art

Project planning

Quality assurance

- Alignment with call for proposals
- Internal consistency checks and harmonization

Basic proposal and project administration

- incl. partner coordination

About SYRION

SYRION, a non-profit association based in Graz/Austria, builds on the outstanding experience of its staff members from leading positions and a multitude of large projects in industry, university and non-university research and development, but also in the public and the military sector. SYRION experts have initiated and coordinated a plenitude of complex R&D projects at national and European levels (with up to 60 partners from 12 countries and 40 € project volume) as well as national roadmaps and testing regions for automated driving.

Your contact person

Dr. Werner Rom
Founder and CEO of SYRION
werner.rom@syrion.at
+43 664 859 2305

- PhD in Physics
- More than 20 years of experience in research, technology development and innovation
- Leading positions in a multinational environment, including LG.Philips, SWARCO, EFKON, ecoplus (business agency of Lower Austria), Virtual Vehicle Research, Joanneum Research, Aarhus University and TU Graz
- Author and co-author of about 70 publications (most of them peer-reviewed)
- Lecturer at the Joanneum University of Applied Sciences
- Certified „Senior Project Manager“ (cSPM), IPMA Level B
- „ECSEL JU Dissemination Award“ in 2017 for the two major European projects DEWI and SCOTT
- Former official UNIDO delegate on nanotechnology in Belarus and Austrian delegate to the standardization working group ISO/IEC JTC 1/WG 7 „Sensor Networks“

Selected references in EU projects

Horizon Europe, H2020, FP7, FP6

- **IPCEI** - Important Projects of Common European Interest in the areas of Hydrogen and Life Sciences (FFG/EC, Proposal Writing)
- **SHOW** – SHared automation Operating models for Worldwide adoption (EC Horizon2020; IA; Support + Partner)
- **Hadrian** – Holistic Approach for Driver Role Integration and Automation Allocation for European Mobility Needs (EC Horizon2020; RIA; Proposal Writing + Partner)
- **SCOTT** – Secure COnnected Trustable Things (EC ECSEL; IA; Proposal Writing and Project Coordination)
- **Sys2Wheel** - Integrated components, systems and architectures for efficient adaption and conversion of commercial vehicle platforms to 3rd generation battery electric vehicles (BEV) for future CO2-free city logistics (EC Horizon2020; RIA; Proposal Writing + Partner)
- **ADVICE** – ADvancing user acceptance of general-purpose hybridized Vehicles by Improved Cost and Efficiency (EC Horizon2020; RIA; Partner)
- **DEWI** – Dependable Embedded Wireless Infrastructure (EC ARTEMIS; IA; Proposal Writing and Project Coordination)
- **OSSCAR** – Future Occupant Safety for Crashes in CARs (EC Horizon2020; RIA; Proposal writing)
- **INFRAMIX** – Preparing road infrastructure for mixed vehicle traffic flows (EC Horizon2020; RIA; Partner)
- **EU-LIVE** – Efficient Urban Light Vehicles (EC Horizon2020; RIA; Proposal Writing and Project Coordination)
- **CRYSTAL** – Critical System Engineering Acceleration (EC ARTEMIS; Proposal Writing)
- **CVIS** – Cooperative Vehicle-Infrastructure Systems (EC FP7; Partner)
- **COOPERS** – CO-OPERative Systems for Intelligent Road Safety (EC FP7; Partner)

SYRION

EU Project Coordination – From start to finish

Project coordination / Overall project management or support

- Overall project management
- Contract management
- Reporting management
- Internal Communication

Specific project activities

- Sustainable Mobility incl. vehicle and infrastructure technologies, C-ITS, CCAM, Mobility scenarios & services
- Smart Production (incl. Robotics, AI)
- Social Sciences and Humanities in mobility and production
- Technical / Socio-technical System Architecture
- Sustainability Assessment (economic, social, ecological)
- Requirements Management (elicitation, architecture, monitoring)
- Evaluation Management (methodology and application)
- Communication, Dissemination & Exploitation Management
- Impact Assessment and New business models (incl. CBA/TCO analysis)
- Guidelines and Roadmaps
